

# Step By Step Beginner Meditation

## GUIDE TO MINDFULNESS MEDITATION

### 1.) PHYSICALLY PREPARE YOURSELF

Find a safe, comfortable place. Scan for tension from head to toe, allowing muscles to relax. Keep your back straight, not stiff. Rest your arms in your lap, loosen your hands. Soften your facial muscles. Unclench your teeth. Gently close your eyes.

### 2.) MENTALLY PREPARE YOURSELF

Leave behind what's already happened today, put aside thoughts of what will happen later. Do not give any attention to thoughts or emotions that arise. Release judgments and opinions. Set an intention for your practice.

### 3.) FOLLOW YOUR BREATH

Fully exhale all the air in your lungs; empty them entirely. Slowly breathe in fresh, clean air through your nose, until your lungs are completely full. At the top of the breath, pause for just a moment. Then slowly exhale all the air again through your nose.

### 4.) CHECK IN AND REPEAT

Practice deep breathing, ideally for 20 minutes. If you catch yourself lost in thought, simply redirect your attention back to your breath. You will likely need to do this several times during your practice. Now is a time for relaxation, not deep thinking.

### 5.) CLOSE WITH GRATITUDE

Take one last deep breath and smile. Thank yourself for taking this time to meditate. Gradually bring awareness back into your body. Resist the temptation to label your session as "good," or "bad." Be proud of yourself for making the effort.

### 5.) PRACTICE AGAIN TOMORROW

Go about your activities with a renewed sense of peace and happiness. Become aware of the impact of your thoughts and judgments. Commit to showing up for your meditation practice again tomorrow. And the next day.

**Mindfulness Meditation** Sarah Cronin, 2020-10-26 If you are holding this book in your hands then you are looking for answers This book does not contain answers It contains a path that will lead to answers The answers are within you Give yourself a chance take the book home read in a relaxed home environment It does not take a lot of time but it will save enough of it for a real search Are you a professional helping others Read this book and tell your customers about it Perhaps it will save you time and help improve your interaction in the professional field Are you a manager Employees practicing a more conscious lifestyle and as a result of practicing meditation become less susceptible to stress more stable in work and give out a better product in a shorter time The book unites the author and reader with the general concept of we This involves a joint search for solutions and

interaction The writer and the reader are interconnected Without a writer there is no book but there is no book without a reader Together we make the book a reality When the concept of you is used when instructions are given then there is a division into the one who knows something and those who are taught This is not quite the right approach because we learn together Creating the text the author collects the accumulated experience and reveals something new and the one who reads the text adopts this experience something new comes into his inner world We are united in this process through writing and reading
