

MINDFULNESS IN 7 STEPS

Start Your Practice

A smart and practical, brief and easy guide to learn and then start your practice of teaching others.

STEP 1

Take a deep breath and start to relax yourself, with your eyes open or closed. Notice the sounds around you coming and going, and let them be whatever they are.

STEP 2

Close your eyes and take all your worries and concerns and pack them into an imaginary bag, and keep it at your side. You can pick it up again later — if you want to.

STEP 3

Bring your full awareness into the sensation of your breathing. Sense the cool air coming in and the warm air going out. Listen intently to the “whoosh” of your breath.

STEP 4

Start counting your breaths softly — count from one to ten, and then start over again. Expect the mind to wander, as it is normal. When it does, just return to counting the breaths again from the start.

STEP 5

Get deeply immersed in the breathing process. Start to notice the volume, speed, warmth, and sound of the breath traveling in and out of your nostrils. Let your mind trace the path of the air from your nostrils to lungs, and back.

STEP 6

Note your thoughts moving through your mind, trying to pull your attention away from your breath. Let your thoughts be whatever they are. Then discard them. Don't drift off with them.

STEP 7

Feel a growing sense of calmness within as you keep settling into a state of peaceful awareness. Sit in that state for as long as you want. Finally, bring the mindfulness session to an end by opening your eyes, stretching out your hands, and getting up.

Mindfulness Meditation Sarah Cronin, 2020-10-26 If you are holding this book in your hands then you are looking for answers This book does not contain answers It contains a path that will lead to answers The answers are within you Give yourself a chance take the book home read in a relaxed home environment It does not take a lot of time but it will save enough of it for a real search Are you a professional helping others Read this book and tell your customers about it Perhaps it will save you time and help improve your interaction in the professional field Are you a manager Employees practicing a more conscious lifestyle and as a result of practicing meditation become less susceptible to stress more stable in work and give out a better product in a shorter time The book unites the author and reader with the general concept of we This involves a joint search for solutions and

interaction The writer and the reader are interconnected Without a writer there is no book but there is no book without a reader Together we make the book a reality When the concept of you is used when instructions are given then there is a division into the one who knows something and those who are taught This is not quite the right approach because we learn together Creating the text the author collects the accumulated experience and reveals something new and the one who reads the text adopts this experience something new comes into his inner world We are united in this process through writing and reading
