Bergonzi, 2015-10 Developing a Jazz Language is the sixth volume of Jerry Bergonzi's series Inside Improvisation. Learning a language requires listening on many levels to the meanings, the sounds, the intentions and the inflections or nuances of the language. The first chapters of this volume on learning the language of jazz focus on the prerequisites of chord scales, approach notes to chord tones and target notes, scale motives and sequences and lines. Part two qualifies improvisational techniques into three areas: melodic, harmonic and sonic. Rhythmic devices are the focus of Vol IV Melodic Rhythms and it is designed as a menu of soloing devices from which you can select your personal course of study. Over 100 specific devices are discussed and conceptualized so as to give the improviser more depth of expression and a greater well from which to draw ideas. Among the numerous topics presented are guide tones, voice leading, chord substitutions, three tonic system for composition, tritonics, hexatonics, tonal expansions, whole tone playing, augmented symmetric scales, double diminished scales, limited range and large range playing, shapes, blues melodies, accents, comping as a soloing device, common tones, articulations, laying back on the beat. The book includes free downloadable audio tracks of twelve standard chord progressions, each played in two different tempos.

Jazz improvisation Sam Most, 1996 Jazz Improvisation is for students who wish to hone their improvisation skills and is applicable to all treble clef instruments. *Interaction - Opening Up the Jazz Ensemble* Graham Collier, 2012 This book and CD set addresses the development of improvisation in all its forms: individual and collective, textural and structural and is designed to open up the minds of all the players in any jazz situation. The workshops are designed to help all levels of improviser. They will help the raw beginner start the process of learning to improvise, not necessarily in an exposed soloing situation but will also help the technically fluent improviser who often needs to be taught to listen more and consider the overall picture rather than just his or her own contribution. Interaction also deals in a practical way with the connections between the present and the past, showing how the concepts of earlier styles can be adapted to our own music to create something valid for our own situation.
