Ivanovna, 2019-02-22 Despite the modernization of the educational process both in colleges and universities the main way of transferring information from teacher to learner remains their personal contact in classrooms and educational literature One of the effective ways to optimize teaching and learning is the technological approach to the organization of the educational process *Modern Technologies for Teaching and Learning in Socio Humanitarian Disciplines* aims to systematize technologies for teaching social and humanitarian disciplines and discuss educational technologies that the modern teacher can and

should possess including tools for person oriented learning and for setting and achieving learning goals The content within this publication examines interactive technologies social educators and visual storytelling and is designed for educators researchers academicians administrators and students The Modern Land-Grant University Robert J.

Sternberg,2014-11-15 In an increasingly competitive higher education environment Americas public universities are seeking ways to differentiate themselves This book suggests that a hopeful vision of what a university should be lies in a reexamination of the land grant mission the common system of values originally set forth in the Morrill Land Grant Acts of 1862 and 1890 which established a new system of practically oriented higher learning across the United States While hard to define these values are often expressed by the one hundred or so institutions that currently define themselves as land grants under the three pillars of research teaching and engagement extension In order to understand the unique character of a modern land grant institution this book focuses especially but not exclusively on the multiple components of a single organization Oklahoma State University founded in 1890 and currently enrolling 35 000 students across five campuses Contributors from across the university focus on what the land grant mission means to them in their daily endeavors whether that be crafting the undergraduate academic experience stimulating research or engaging with the community through extension activities The twenty contributions are divided into four parts exploring in turn the core mission of the modern land grant university the university environment the universitys public value and its accountability The volume ends with an epilogue by the editor which summarizes the values underlying the activities of land grant institutions In a time of uncertainty in higher education this volume provides a helpful overview of the many different types of value public universities bring to American society It also offers a powerful vision of a future founded on land grant ideas that will be inspiring to university administrators and trustees other educational policymakers and faculty and staff especially those fortunate enough to be part of land grant institutions **Innovative Pathways for University Entrepreneurship in the**
