

Save the Earth

Read the following text carefully.

Without the Earth we have nowhere to live, along with many other organisms. If we don't save the Earth now maybe our children or grandchildren might not be able to see it for long. Our atmosphere is weakening and we have to do something about it fast.

We could plant more trees to create more oxygen to keep the bad air away from the atmosphere, or we could just stop cutting down the rainforest. We are living and we need the space but we aren't the only species on this earth. Saving the rainforest is not only good for us and the atmosphere but also good for the many different species that it homes.

We could try to get as many people as possible to switch to hybrids and other energy saving things to use less fossil fuel for energy and relying more on solar and wind energy. Fossil fuels are destroying our earth and we need to limit the use of it.

Recycling is a great and easy way to help our precious planet. Everyone can help, all they have to do is follow three simple rules: Reduce, Reuse, Recycle!

The world is precious and we need to keep it that way.

By David M., Westland, MI
