

How to make a Wildlife Pond

You (1) make a wildlife pond in your garden quite easily, whether you live in the country or in the city.

When?

The best time (2) you to do it is in November. Then the pond will be (3) by the spring.

Where?

Where you put the pond is (4) important. First, it needs to be on level ground. Secondly, it (5) to be somewhere that is quite sunny but not with strong shade!

What width?

The pond needs to have a 'leaky' (6) that the water stays in. You can buy a flexible pond liner from a garden centre. You also need to put

(7) soft under the lining so it doesn't tear. You can use old newspapers if you like.

How wide?

Dig the hole for the pond. You can make it the size and shape that you want but it has to be at (8) feet, feet deep in the middle and shallow around the edges. Chop away all the stones, put in the newspapers and the pond liner and add the water.

What about the wildlife?

(9) look means you can't see your plants in and around the pond. As (10) the animals, most of them will turn up on their own - not at once, but over time.

Look	How often?	How long?
Consider how much	Think about it	Think about it
