

## A conceptual image showing a human profile in silhouette, facing left. The profile is overlaid with a complex digital interface. The interface consists of numerous small, semi-transparent rectangular panels and circular icons, each containing different types of data or symbols. These include line graphs, bar charts, pie charts, and various icons representing different fields like science, technology, and communication. The background is a dark, textured blue, and the overall aesthetic is futuristic and data-driven.

*Getting Skills Right Training Supply for the Green and AI Transitions*  
*Equipping Workers with the Right Skills* OECD,2024-12-11

Adult learning systems are being called upon to prepare workers for major labour market shifts including the green transition and the rise of artificial intelligence AI in the workplace While initial education is important upskilling and reskilling the existing workforce is essential to help individuals and businesses adapt and prepare for these transitions Policy makers face the challenge of ensuring training is both relevant and inclusive

yet there is limited understanding of whether current training supply is sufficient to meet current and future skill needs Most research focuses on the demand for skills with little insight into the supply To fill this gap this report uses evidence from new OECD questionnaires and an analysis of training catalogues to evaluate whether current training supply aligns with the skills needed for the green and AI transitions It also provides insight into the accessibility and flexibility of training efforts to guide policy makers in their efforts to develop more effective inclusive training strategies
