*Ethics and Counterrevolution* Kermit D. Johnson, 1997 This book is an ethical critique of U S policy and involvement in counterrevolutionary war It rejects the thesis that the end of the Cold War means the end of revolution since revolution is grounded in root causes The defining characteristics of revolutionary war are outlined based on thought ranging from Mao Tse tung to modern counterinsurgency theorists to recent U S national security directives and military publications Underlying doctrines for U S interventions are traced from the Monroe Doctrine and the Roosevelt Corollary to Kennedy s Counterinsurgency Doctrine and the Nixon Doctrine From previous U S war fighting experience and declaratory policy an outline of national policy and strategy for counterinsurgency emerges This policy has been a formula for winning wars not revolutions The book advocates the adoption of a modest political Hippocratic oath of Do no harm and argues that civilization demilitarization and the root causes for revolution are necessary for the building of true democracy
