**EU Procedural Law** Koen Lenaerts, Ignace Maselis, Kathleen Gutman, 2014-03-20 The European Union is unique amongst international organisations in that it has a highly developed and coherent system of judicial protection. The rights derived from Union law can be enforced in court as opposed to other international organisations whereby enforceability is often far less certain. At the heart of the system of judicial protection in the European Union is the core principle of upholding the rule of law. As such, the stakes are high in the sense that the system of the judicial protection in the European Union must live up to its promise in which individuals, Member States and Union institutions are all guaranteed a route by which to enforce Union law rights. This book provides a rigorously structured analysis of the EU system of judicial protection and procedure before the Union courts. It examines the role and the competences of the Union courts and the types of actions that may be brought before them such as the actions for infringement, annulment and failure to act as well as special forms of procedure for example interim relief, appeals and staff cases. In doing so, special attention is given to the fields of EU competition law and State aid. In addition, it evaluates the relationship between the Court of Justice and the national courts through the preliminary ruling procedure and the interplay between EU law and the national procedural frameworks generally.

Throughout, it takes account of significant institutional developments including the relevant changes brought by the entry into force of the Lisbon Treaty and the amendments to the Statute of the Court of Justice of the European Union and the Rules of Procedure of the Court of Justice and the General Court.

**EU Procedural Law** Koenraad Lenaerts, Kathleen Gutman, Janek Tomasz Nowak, 2023 EU Procedural Law provides a rigorously structured analysis of the system of judicial protection in the European Union and the procedure before the Union Courts. It examines the various types of proceedings which may be brought before the Union Courts and addresses the relationship between the Court of Justice and the national courts.

*EU Civil Justice* Burkhard Hess, Maria Bergström, Eva Storskrubb, 2016-01-14 This seventh volume in the Swedish Studies in European Law series brings together some of the most prominent scholars working within the fast evolving field of EU civil justice. Civil justice has an impact on matters involving inter alia family relationships, consumers, entrepreneurs, employees, small and medium sized businesses and large multinational corporations. It therefore has great power and potential. Over the past 15 years, a wealth of EU measures have been enacted in this field. Issues arising from the implementation thereof and practice in relation to these measures are now emerging. Hence, this volume will explore the benefits as well as the challenges of these measures. The particular themes covered include forum shopping, alternative dispute resolution, simplified procedures and debt collection, family matters and collective redress. In addition, the deepening of the field that continues post-Lisbon has occasioned a new level of regulatory and policy challenges. These are discussed in the final part of the volume which focuses on mutual recognition also in the broader European law context of integration in the Area of Freedom, Security and Justice.
