Ethics And Criminal Justice An Introduction Cambridge Applied Ethics:

Ethics and Criminal Justice Professor of Philosophy in the Department of Law and Police Science John Kleinig, 2014-05-14 Ethics and Criminal Justice John Kleinig, 2008 The Broadview Introduction to Philosophy Volume II: Values and Society Andrew Bailey, 2019-06-18 This volume of The Broadview Introduction to Philosophy offers an intriguing selection of readings on ethics social political philosophy and issues of life death and happiness Canonical texts from historical figures such as Plato Hobbes and Wollstonecraft are included alongside contemporary selections from such thinkers as Claudia Card Judith Jarvis Thomson and Ta Nehisi Coates Unlike other introductory anthologies the Broadview offers considerable apparatus to assist the student reader in understanding the texts without simply summarizing them Each selection includes an introduction discussing the context and structure of the primary reading as well as thorough annotations designed to clarify unfamiliar terms references and argument forms **The Philosophical Review** Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 2007 An international journal of general philosophy **Proceedings and Addresses of the American Philosophical Association** American Philosophical Association, 2008 List of members in v 1 **A Companion to Applied Philosophy** Kasper Lippert-Rasmussen, Kimberley Brownlee, David Coady, 2016-11-14 Applied philosophy has been a growing area of research for the last 40 years Until now however almost all of this research has been centered around the field of ethics A Companion to Applied Philosophy breaks new ground demonstrating that all areas of philosophy including epistemology metaphysics philosophy of science and philosophy of mind can be applied and are relevant to questions of everyday life This perennial topic in philosophy provides an overview of these various applied philosophy developments highlighting similarities and differences between various areas of applied philosophy and examining the very nature of this topic It is an area to which many of the towering figures in the history of philosophy have contributed and this timely Companion demonstrates how various historical contributions are actually contributions within applied philosophy even if they are not traditionally seen as such The Companion contains 42 essays covering major areas of philosophy the articles themselves are all original contributions to the literature and represent the state of the art on this topic as well as offering a map to the current debates **Criminal Justice Ethics** Cyndi Banks, 2004-03-19 This book is an overview of the need for and use of ethical behaviour by all players in the criminal justice system The book is organized in two Parts The first Part will cover ethical issues and dilemmas in the criminal justice system and the second Part will focus on the major philosophical theories of ethics Highly illustrative case studies are used throughout the book to demonstrate the ethical issues facing criminal justice professionals today in applied terms The future development of public policy related to the criminal justice system is also considered Australian Journal of Professional and Applied Ethics, 2000 **Persons, Moral Worth, and Embryos** Stephen Napier, 2011-06-21 Bioethicists have achieved consensus on two ideas pertaining to beginning of life issues 1 persons are those beings capable of higher order cognition or

self consciousness and 2 it is impermissible to kill only persons As a consequence a consensus is reached regarding the permissibility of both destroying human embryos for research purposes and abortion The present collection aims to interact critically with this consensus Authors address various aspects of this orthodoxy Issues discussed include theories of personhood and in particular the role of thought experiments used in support of such theories the notion of an intrinsic potential and the moral relevance of having one new formulations of the virtue argument against abortion rights four dimensionalism and abortion the notion of moral status and who or what has it scientific accounts of what a human being is as well as addressing empirical evidence of fetal consciousness and analysis of the public policy implications given the epistemic status of pro choice arguments Given the issues discussed and that the arguments in critical focus are fairly new the collection provides a novel comprehensive and rigorous analysis of contemporary pro choice arguments Fictional Leaders Jonathan Gosling, Peter Villiers, 2012-11-14 Management theory is vague about the experience of leading Success power achievement are discussed but less focus is given to negative experiences leaders faced such as loneliness or disappointment This book addresses difficult to explore aspects of leadership through well known works of literature drawing lessons from fictional leaders *Criminal Justice Ethics* Cyndi Banks, 2016-02-23 Criminal Justice Ethics Fourth Edition examines the criminal justice system through an ethical lens by identifying ethical issues in practice and theory exploring ethical dilemmas and offering suggestions for resolving ethical issues and dilemmas faced by criminal justice professionals Bestselling author Cyndi Banks draws readers into a unique discussion of ethical issues by exploring moral dilemmas faced by professionals in the criminal justice system before examining the major theoretical foundations of ethics This distinct organization allows readers to understand real life ethical issues before grappling with philosophical approaches to the resolution of those issues **The British National Bibliography** Arthur James Wells, 2009 **Ethics in Criminal Justice** Mokerrom Hossain, 2022-12-30 Recognizing that contemporary criminal justice professionals require strong moral standing Ethics in Criminal Justice provides students with an essential guide to ethics in practice Opening chapters outline the ways in which the criminal justice system can change as a result of political and historical forces underscore how ethics education can enhance the quality of public service for criminal justice professionals describe the development of modern social thoughts and perspectives and illustrate how the culture of society shapes the behavior of its members Students learn about virtual ethics hedonism and stoicism three contemporary branches of ethics including metaethics normative ethics and applied ethics the concept of morality and key theories of ethics Dedicated chapters examine ethical issues in policing criminal procedure and punishment and corrections The final chapter addresses the role of universal benevolence in criminal justice and the ways in which ethics can make a difference in police training Comprehensive in nature Ethics in Criminal Justice is an essential resource for courses and programs in criminal justice **A Theory of Legal Punishment** Matthew Altman, 2021-05-05 This book argues for a mixed theory of legal punishment that treats both crime reduction and retribution

as important aims of the state A central question in the philosophy of law is why the state's punishment of its own citizens is justified Traditionally two theories of punishment have dominated the field consequentialism and retributivism According to consequentialism punishment is justified when it maximizes positive outcomes According to retributivism criminals should be punished because they deserve it This book recognizes the strength of both positions According to the two tiered model the institution of punishment and statutory penalties as set by the legislature are justified based on their costs and benefits in terms of deterrence and rehabilitation The law exists to preserve the public order Criminal courts by contrast determine who is punished and how much based on what offenders deserve The courts express the community's collective sense of resentment at being wronged This book supports the two tiered model by showing that it accords with our moral intuitions commonly held compatibilist theories of freedom and assumptions about how the extent of our knowledge affects our obligations It engages classic and contemporary work in the philosophy of law and explains the theory's advantages over competing approaches from retributivists and other mixed theorists The book also defends consequentialism against a longstanding objection that the social sciences give us little guidance regarding which policies to adopt Drawing on recent criminological research the two tiered model can help us to address some of our most pressing social issues including the death penalty drug policy and mass incarceration This book will be of interest to philosophers legal scholars policymakers and social scientists especially criminologists economists and political scientists Ethics and Law W. Bradley

Wendel,2014-10-16 Combining theory with real world examples this book explores the classic problems of legal ethics and the philosophy of law **Forthcoming Books** Rose Arny,2003-04 **The Palgrave Handbook of Applied Ethics and the Criminal Law** Larry Alexander,Kimberly Kessler Ferzan,2019-12-02 This handbook consists of essays on contemporary issues in criminal law and their theoretical underpinnings Some of the essays deal with the relationship between morality and criminalization Others deal with criminalization in the context of specific crimes such as fraud blackmail and revenge pornography The contributors also address questions of responsible agency such as the effects of addiction or insanity and some deal with punishment its mode and severity and the justness of the state's imposition of it These chapters are authored by some of the most distinguished scholars in the fields of applied ethics criminal law and jurisprudence *International Journal of Comparative and Applied Criminal Justice* ,2004 Subject Guide to Books in Print ,2001 Ethics in Criminal Justice Sam S. Souryal,John T. Whitehead,2019-09-17 Introducing the fundamentals of ethical theory Ethics in Criminal Justice In Search of the Truth Seventh Edition exposes the reader to the ways and means of making moral judgments by exploring the teachings of the great philosophers sources of criminal justice ethics and ethical issues in the criminal justice system It is presented from two perspectives a thematic perspective that addresses ethical principles common to all components of the discipline and an area specific perspective that addresses the state of ethics in criminal justice in the fields of policing corrections and probation and parole The seventh edition features discussion of current critical issues in

criminal justice accusations of racism police shootings stop and frisk policy marijuana laws mass incarceration life sentences prison privatization the swift and certain deterrence model of probation excessive probation fees and the Good Lives Model in corrections The seventh edition also offers completely revised coverage of capital punishment and the rehabilitation debate and a discussion of how juvenile justice often fails to live up to its ideals Finally the book features new case studies of recent ethical dilemmas in criminal justice to enhance students understanding of real life ethics decision making Suitable for advanced undergraduates or graduate students in criminal justice programs in the US and globally this text offers a classical view of ethical decision making and is well grounded in specific case examples
