Ethics After Idealism Ethics After Idealism:

Ethics After Idealism Rey Chow, 1998-01-22 Recognizing the necessity for a critique of idealism constitutes for Chow an ethics in the postcolonial postmodern age In particular she uses ethics to designate the act of making decisions in this context decisions of reading that may not immediately conform with prevalent social mores of idealizing our others but that nonetheless enables such others to emerge in their full complexities

Postmodernism and China Xudong Zhang, Arif Dirlik, 2000-10-27 This work maps the terrain of the postmodern in China

After Poststructuralism Colin Davis, 2004-03-01 In the last decades of the twentieth century French poststructuralist theory transformed the humanities it also met with resistance and today we frequently hear that theory is dead In this brilliantly argued volume Colin Davis reconsiders key arguments for and against theory identifying significant misreadings reassesses the contribution of poststructuralist thought to the critical issues of knowledge ethics hope and identity sheds new light on the work of Jean Fran ois Lyotard Emmanuel Levinas Louis Althusser and Julia Kristeva in a stunning series of readings offers a fresh perspective on recent debates around the death of theory In closing he argues that theory may change but it will not go away After poststructuralism then comes the afterlife of poststructuralism Wonderfully accessible this is an account of the past and present fortunes of theory suitable for anyone researching teaching or studying in the field And yet it is much more than this Colin Davis provides a way forward for the humanities a way forward in which theory will play a crucial part

Discipline Problems Tadashi Dozono, 2024-05-07 Angel a Black tenth grader at a New York City public school self identifies as a nerd and likes to learn But she s troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas presenting a sugar coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler she says The world I live in is a lot more complex Angel like every student interviewed in Discipline Problems has been identified by teachers as a troublemaker a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she s taught speak to her curiosity and insight crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools she exposes the shortcomings of her classrooms academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking and the students are disciplined for acting out instead of being rewarded for their intellectual engagement Tadashi Dozono a professor of education and former high school social studies teacher takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students
