**Secondary Education in Ethiopia** Rajendra Joshi, Adriaan Verspoor, 2012-11-01 This book discusses reforms that should be undertaken in secondary education to support Ethiopia's transition from a low to middle income economy. The most critical reform identified is the introduction of a flexible curriculum that serves the needs of all students including those who may not pursue higher education.

**Perceptions and Difficulties of Students in Large EFL Classes. Grade 11 Students in Focus** Yirgalem Girma, 2023-03-13 Master's Thesis from the year 2023 in the subject Didactics for the subject English Pedagogy Literature Studies grade 3-81 Addis Ababa University language English abstract The major objective of the study was to assess students' perceptions towards EFL large classes in terms of its instructional, psychological and social aspects and their perceived challenges. To this end, two preparatory schools were selected owing to their convenience for the study, the researchers' familiarity with the situation and the serious situational constraints related to EFL large class size with special reference to grade eleven. To achieve the purpose of the study, a descriptive research method was employed because the main objective was just to gather information about students' perceptions and their perceived difficulties. Likert scale type questionnaires and semi-structured interviews were employed to gather adequate data from the student respondents but only open-ended and close-ended questionnaires were distributed to eight randomly selected EFL teachers to confirm data obtained from their students. The instruments were piloted before the main study on 20 students and some modifications were made on their grammar and wordings but six items were rejected. Out of 1545 students, 155 were selected as samples through simple random sampling technique and ten of them were voluntarily selected and interviewed. The data collected through Likert type questionnaires were analyzed through descriptive statistics like frequency percentages and means. Data gathered through interview were analyzed through descriptive statements. The data gathered through questionnaires were substantiated by the data obtained through interview.

**The Making of Elite Women** Tanja Müller, 2021-11-29 This book is a thorough study about the upbringing of elite women in Eritrea encompassing the time of the armed struggle for liberation as well as its aftermath up to the tenth anniversary of Eritrean independence in 2001 and beyond. It is a multi-disciplinary study combining a comprehensive analysis of Eritrean history, society and political developments with extensive case study research into the lives of different groups of elite women. Modernisation processes created by the Eritrean revolution fostered an environment

in which women are regarded as equal and encouraged to occupy positions of leadership At the same time the revolution s hegemonic ideology does not envisage women opting out of its version of modernity thus new avenues open up only for those who subscribe to the revolution s narrative of progress Furthermore it is argued that while the Eritrean revolution played a decisive role in opening up possibilities for women s emancipation a failure to implement democratic structures of governance puts the revolution s societal achievements at risk its legacy might well rest with possibilities of personal liberation in individual lives
