## **Ethnography Lessons A Primer:**

*Ethnography Lessons* Harry F Wolcott, 2016-09-17 Harry Wolcott takes the reader inside the process of constructing an ethnographic study offering a wealth of lessons from one of the masters In this concise primer he provides a set of models from which to organize a study explains how to pick the various components that go into the ethnographic report advises on how to create analogies and metaphors to help explain your work and identifies the key features of an effective ethnography He also discusses the role of serendipity and questions of ethics in doing ethnographic work Learn the essentials of ethnography from one of the masters **Autoethnography** Tony E. Adams, Stacy Linn Holman Jones, Carolyn Ellis, 2015

Brimming with examples this book demonstrates how qualitative researchers can use autoethnography as a method for qualitative research Topics include a brief history of autoethnography the purposes and practices of doing autoethnography interpreting analyzing and representing personal experience and evaluating autoethnographic work *An Autopsy of Ethnographic Fieldwork* Louis Augustin-Jean, 2024-07-24 This edited volume presents an international collection of fieldwork experiences from every stage of the research process with a view to normalising the process of adaptation modification and even failure during fieldwork when circumstances interrupt the expected outcomes This book aims to address a gap often found in methodology books by including nine full autopsy like reflection of fieldwork experiences selected based on researchers disciplines and fields the diversity of geographical locations and their differing themes Its chapters record a swath of experience from choosing the research themes and hypotheses through to academic presentations and publications shedding light on an area academic research that is often overlooked Documenting experience from anthropologists and sociologists to political scientists and economists the diversity of the book s approach and its multidisciplinary focus will interest researchers scholars and postgraduate students from a range of subdisciplines and levels of fieldwork experience

Writing Up Qualitative Research Harry F. Wolcott, 2008-11-19 Writing Up Qualitative Research Third Edition offers time tested suggestions on every aspect of the process from beginning to end In this new edition author Harry Wolcott continues to focus on the writing side of qualitative research while incorporating new features such as guidelines on how and where to use theory This text is ideal as a supplementary text in any upper level undergraduate or graduate seminar on the research process **JASO** ,1995 **Genres of Recollection** Penelope Cecilia Papailias, 2001 New Perspectives on Turkey ,1996

constitutes the Mediterranean      **"The" annual American catalog** ,1899      *Anthropological Journal on European Cultures* ,2001      Europe in the Anthropological Imagination Susan Parman,1998 Europe in the Anthropological Imagination is a provocative reflective book about how American anthropologists study Europe The book is composed of fourteen essays by twelve anthropologists who have worked in Europe for at least twenty years These anthropologists were asked to address how when where and why they began to study Europe and to consider what this implied for the development of anthropology in general since anthropology is traditionally identified as a field that studies the non western exotic Other Back cover      Bodies of Knowledge Eugenia Georges,2008 Recipient of the 2006 Norman L and Roselea J Goldberg Prize for the best project in the area of medicine The author a second generation Greek American returned to Greece with her young daughter to do fieldwork over the course of a decade Focusing on Rhodes an island that blends continuity with the past and rapid social change in often unexpected ways she interviewed over a hundred women doctors and midwives about issues of reproduction The result is a detailed portrait of how a longstanding system of local gynecological and obstetrical knowledge under the control of women was rapidly displaced in the the period following World War II and how the technologically intensive biomedical model that took its place in turn assumed its own distinctive signature Bodies of Knowledge is a vivid ethnographic study of how a presumably globalizing and homogenizing process like medicalization can be reshaped as women and medical experts alike selectively accept or reject new practices and technologies Georges found for example that women in Rhodes have enthusiastically embraced some new technologies like fetal imaging during pregnancy but rejected others like medical contraception They are also avid consumers of popular childbirth manuals This book is the recipient of the 2006 Norman L and Roselea J Goldberg Prize for the best project in the area of medicine      **Anthropos** ,1995      **The Annual American Catalogue 1886-1900** ,1899      **Bulletin** Modern Greek Studies Association,1992      Social Analysis ,1997
