Eurasian Mission An Introduction To Neo Eurasianism:

Eurasian Mission Alexander Dugin,2016 *Eurasian Mission* Alexander Dugin,2014-12-15 According to Alexander Dugin the twenty first century will be defined by the conflict between Eurasianists and Atlanticists The Eurasianists defend the need for every people and culture on Earth to be allowed to develop in its own way free of interference and in accordance with their own particular values Eurasianists thus stand for tradition and for the blossoming variety of cultures and a world in which no single power holds sway over all the others Opposing them are the Atlanticists They stand for ultra liberalism in both economics and values stopping at nothing to expand their influence to every corner of the globe unleashing war terror and injustice on all who oppose them both at home and abroad This camp is represented by the United States and its allies around the world who seek to maintain America s unipolar hegemony over the Earth The Eurasianists believe that only a strong Russia working together with all those who oppose Atlanticism worldwide can stop them and bring about the multipolar world they desire This book introduces their basic ideas Eurasianism is on the rise in Russia today and the Kremlin s geopolitical policies are largely based on its tenets as has been acknowledged by Vladimir Putin himself It is reshaping Russia s geopolitics and its influence is already changing the course of world history Essentially the unipolar world is simply a means of justifying dictatorship over people and countries I think that we need a new version of interdependence This is particularly relevant given the strengthening and growth of certain regions on the planet which process objectively requires institutionalization of such new poles creating powerful regional organizations and developing rules for their interaction Cooperation between these centers would seriously add to the stability of global security policy and economy Vladimir Putin Valdai Club October 24 2014 **Eurasian Mission** Alexander Dugin,2024-11-21 According to Alexander Dugin the twenty first century will be defined by the conflict between Eurasianists and Atlanticists The Eurasianists defend the need for every people and culture on Earth to be allowed to develop in its own way free of interference and in accordance with their own particular values Eurasianists thus stand for tradition and for the blossoming variety of cultures and a world in which no single power holds sway over all the others Opposing them are the Atlanticists They stand for ultra liberalism in both economics and values stopping at nothing to expand their influence to every corner of the globe unleashing war terror and injustice on all who oppose them both at home and abroad This camp is represented by the United States and its allies around the world who seek to maintain America s unipolar hegemony over the Earth The Eurasianists believe that only a strong Russia working together with all those who oppose Atlanticism worldwide can stop them and bring about the multipolar world they desire This book introduces their basic ideas Eurasianism is on the rise in Russia today and the Kremlin s geopolitical policies are largely based on its tenets as has been acknowledged by Vladimir Putin himself It is reshaping Russia s geopolitics and its influence is already changing the course of world history *Eurasian Mission* Aleksander Dugin,2024 *Theorizing the European Neighbourhood Policy* Sieglinde Gstöhl,Simon Schunz,2016-12-19

Despite growing scholarly interest in the EU's flagship policy towards its Eastern and Southern neighbours serious attempts at theory building on the European Neighbourhood Policy ENP have been largely absent from the academic debate This book aims at contributing to fill this research gap in a three fold manner first and foremost it aims at theorizing the ENP as such explaining the origins development and effectiveness of this policy Building on this effort it also pursues the broader objective of addressing certain shortcomings in EU external relations theory and even beyond in International Relations theory Finally it aspires to provide new insights for European policy makers It is one of the first volumes to provide different theoretical perspectives on the ENP by revisiting and building bridges between mainstream and critical theories stimulating academic and policy debates and thus setting a novel less EU centric research agenda This text will be of key interest to scholars students and practitioners in EU external relations EU foreign policy the European Neighbourhood Policy and more broadly in European Union Politics and International Relations

Confrontational and Cooperative Regional Orders

Ariel Gonzalez Levaggi, 2019-07-23 This book explains cooperative and confrontational regional orders in the post Cold War era Applying a push and pull framework to the evolution of regional orders the book's theoretical section compares regional dynamics and studies the transformation and authority of governing arrangements among key regional actors who manage security and institutional cooperation This presents a novel approach to comparing non Western regional orders and helps forge a better integration between International Relations disciplinary approaches and area studies The empirical section analyzes Central Eurasia and South America within the period 1989-2017 using case studies and interviews with decision makers practitioners and experts The volume demonstrates that soft engagement strategies from extra regional great powers and internationalist domestic coalitions framed in a stable democratic polity are forces for peaceful interaction while hard engagement strategies from great external powers plus nationalist coalitions within democratic backsliding in key regional powers present negative outlooks for regional cooperation This book will be of much interest to students of regional security comparative politics area studies and International Relations

Last War of the World-Island: The Geopolitics of

Contemporary Russia Alexander Dugin, 2015-05-26 Alexander Dugin traces the geopolitical development of Russia from its origins in Kievan Rus and the Russian Empire through the peak of its global influence during the Soviet era and finally to the current presidency of Vladimir Putin Dugin sees Russia as the primary geopolitical pole of the land based civilizations of the world forever destined to be in conflict with the sea based civilizations At one time the pole of the seafaring civilizations was the British Empire today it is represented by the United States and its NATO allies Russia can only fulfill its geopolitical mission by remaining in opposition to the sea powers Today according to Dugin this conflict is not only geopolitical in scope but also ideological Russia is the primary representative and defender of traditional values and idealism whereas the West stands for the values of liberalism and the market driven society Whereas Russia began to lose sight of its mission during the 1990s and threatened to succumb to domination by the Western powers Dugin believes that Putin has begun to correct its

course and return Russia to her proper place But the struggle is far from over while progress has been made Russia remains torn between its traditional nature and the temptations of globalism and Westernization and its enemies undermine it at every turn Dugin makes the case that it is only by remaining true to the Eurasian path that Russia can survive and flourish in any genuine sense otherwise it will be reduced to a servile and secondary place in the world and the forces of liberalism will dominate the world unopposed

Putin Vs Putin Alexander Dugin, 2015-05-25 According to Prof Alexander Dugin Vladimir Putin stands at a crossroads Throughout his career as the President of Russia Putin has attempted to balance two opposing sides of his political nature one side is a liberal democrat who seeks to adopt Western style reforms in Russia and maintain good relations with the United States and Europe and the other is a Russian patriot who wishes to preserve Russia s traditions and reassert her role as one of the great powers of the world According to Dugin this balancing act cannot go on if Putin wishes to enjoy continuing popular support among the Russian people Putin must act to preserve Russia s unique identity and sovereignty in the face of increasing challenges both from Russian liberals at home and from foreign powers Russia is no longer strong enough to stand on her own he writes In order to do this Russia must cooperate with other dissenting powers who oppose the new globalist order of liberalism to bring about a multipolar world in which no single nation wields supreme power but rather several major powers keep each other in balance Russia is crucial to this effort in Dugin s view and indeed its own survival as a unique and independent civilisation is dependent on a geopolitical shift away from the unipolar world represented by America s unchecked supremacy This fascinating book written by an informal advisor to Putin and a Kremlin insider is the first of its kind in English Alexander Dugin b 1962 is one of the best
