This is the first volume which includes the sessions: Advanced AI based Data Annotation Tools, AI DAT Digital Heritage Contents, DHC female technopreneurs and early career researchers in distributed computing and AI organised by the Gendered Innovation Living Labs GILL, New perspectives and solutions in Cultural Heritage TECTONIC, Artificial Intelligence trends in Health Care AIHeC, Doctoral Consortia, each focusing on specific themes within the broader scope of AI and its applications. The DCAI 24 technical program has selected 74 papers in special sessions and as in past editions, it will be special issues in ranked journals. This symposium is organized by the University of Salamanca, Spain. We would like to thank all the contributing authors, the Program Committee members, National Associations AEPIA, APPIA, LASI and the sponsors AIR Institute.

Education Reimagined: The Impact of Advanced Technologies on Learning
Mohammad Khalil, Mohammed Saqr, Sonsoles López-Pernas, Isabel Hilliger, 2024-12-18 The last decade has seen significant progress in technology, particularly in the fields of Artificial Intelligence and machine learning, which have had a profound impact on numerous industries, including education. The integration of technology in education has fundamentally altered the landscape of learning, where data becomes a crucial component to provide insights into, for example, how students learn, when and where additional support is needed. Employing educational data is proving to be a catalyst for innovation in education, opening up new possibilities for students and educators alike. The focus of this Research Topic is to explore the impact of recent technological innovations and advances such as AI, AI powered Chatbots, Learning Analytics, Virtual and Augmented Reality and remote and virtual labs on different education systems, both from the educational and the psychological perspective. The scope is twofold: on the one hand, examining the use of these advanced technologies in learning and teaching activities, and on the other hand, teaching students about these technologies and understanding the impact of including them in new education policies and curricula, including teaching of AI, data science, analytics and the ethical implications of data. The Research Topic seeks to provide insightful and thought provoking perspectives on how technology is being utilized to enhance the learning experience for students of all ages, both in higher education and K12 education, and their transition to higher education. By gathering experts in psychology, education and technology, this Research Topic aims to present research

findings and best practices and to stimulate discussions on the role of technology in shaping the future of education The ultimate objective is to inspire innovation and to improve the education of future generations through advanced technologies
